*If shown, these figures relate to indicative past performance of the underlying fund. N/A means fund not launched or data not available. Past performance is not a reliable indicator of future results. The value of investments may go down as well as up and you may not get back the amount invested. If the fund you choose invests in overseas markets, changes in rates of exchange between currencies may cause the value of your investment to fall. Investments in small and emerging markets can be more volatile and liquidity may be lower than other overseas markets. Due to the greater possibility of default an investment in corporate bonds is generally less secure than an investment in government bonds. Default risk is based on the issuer's ability to make interest payments and to repay the loan at maturity. Default risk may therefore vary between different government issuers as well as between different corporate issuers.

Risk rating (Equity funds)

This rating gives an indication of the risk level of Cash (A1-A2), Bond (B1-B3), Equity (E1-E5) and Property (P1-P2) funds only in relation to Fidelity's range of funds within each asset class. A higher number signifies a higher risk fund. They are intended only as a guide and are based on our quarterly rating review process which uses information about a fund manager's investment approach, as well as quantitative measures based on the fund's historic performance and its current holdings.

Risk rating description

A Fund with potentially more volatile returns than average, as a result of high weights in a single country, sector or potentially more volatile types of stocks (e.g. smaller companies).

The performance figures above reflect the return on investment after the fund's charges have been deducted and are shown in fund currency terms. "Other charges" amount to the fees and expenses of the Trustee or Depositary, along with the Registrar and Auditors and certain other expenses and are incurred on an ongoing basis. The "other charges" figure quoted is a historic representation of the costs the fund incurred over the past year. Current "other charges" payable may differ slightly from the figure shown. Annual management charges and "other charges" are typical of the deductions made on investment funds offered in the pensions industry and are reviewed annually. FIL Limited, established in Bermuda, and its subsidiaries are commonly referred to as Fidelity International. Fidelity, Fidelity International and the Pyramid Logo are trademarks of FIL Limited.
